TEN CENTS A WEEK.

BOTH ARE FIRM IN POSITIONS

Neither Operators Nor Min-
ers Will Yield an Inch

OUTLOOK IS VERY GLOOMY

IN THE ANTHRACITE COAL FIELDS AND
PEACE IS FAR AWAY

Conference Between John Mitchell
and Operator Baer on in New
York Today.

New York, April 3.—Both representatives of the operators and miners met separately this morning and prepared the final plans for the carrying out of the battle in conference. At noon the joint conference met. Baer and Mitchell cordially shook hands. If those who witnessed their first meeting had not known the grave question hanging in the balance between these men, they would have concluded it was a social gathering of gentlemen in progress.

New York, April 3.—Prospects for peace in the hard coal fields seem remote today, and there is little likelihood that the joint conference of the operators and miners, which meets at noon at the Jersey Central railroad building will result in an adjustment of the differences unless the attitude of both sides undergoes a great change. The operators this morning say they will not yield an inch in their position, but are willing to sign an agreement to continue operations under the award of the anthracite commission for another term of years. The miners will absolutely refuse to enter into another agreement under the commission award, but are willing to modify their original demands for the sake of peace. How far these modifications will go are a matter of speculation for President John Mitchell would not discuss the matter this morning. It is understood, however, that the miners' scale committee has prepared an irreducible minimum which will waive all the original demands and make a demand for an eight hour day. This will mean an increase in wages in many instances and give the outside men what they most desire.

President Baer of the operators, takes a gloomy view of the situation and believes nothing will come of the conference. The reply to the miners will probably be not made today, but will be given tomorrow. The answer of the operators to the new or modified demands presented today, will, if the present temper of the operators undergoes no change, be a flat refusal. Baer will move the counter proposition of the operators that the miners continue for another period of years under the award of the anthracite commission. This will be refused by the miners and then after some argument on the original demands, Mitchell will present the irreducible minimum, which it is said this morning will be a complete waiver of all the demands and an offer of resume work for an eight hour concession. This move Mitchell and the members of the miners' committee believe will create public sympathy for the miners, and the operators will be forced to make terms rather than submit to a general strike.

Reports have been current several days that if the operators decline this offer Mitchell will intimate that a congressional investigation of the anthracite coal carrying roads and their subsidiary mining companies will be asked for. Mitchell made a similar move in the bituminous convention and the operators did not like the idea a bit. Baer said again today that the outlook was not promising.

men have announced they will grant the demands made for the rock men by the mine workers' scale committee but even at this inducement the rock men declined to work today, saying they will await instructions from President Mitchell, of the Miners' Union, before they do so. They asked for an increase of 25 cents a day and eight hours' work. This the contractors say they will pay if the rock men will work. There are many of these workers.

Some workers are now experiencing a coal famine, peculiarly right in the heart of the region, as they are. They were so busy with the rush of work at the collieries during the last few weeks that they neglected to fill their cellars and coal bins with coal. The suspension order came so unexpectedly that yesterday, the first day they were idle, when they tried to buy coal they found there was none for sale. The coal dealers report every ton mined in the collieries in this vicinity except that stored for colliery purposes, shipped away or sold to the local trade, and there is not a ton of any kind to be had.

Columbus, O., April 3.—The indications are that the executive board of District No. 6, comprising the Ohio organization of United Mine Workers, will authorize the state officials to sign agreements with all operators who will pay the 1903 scale. By next Monday it may be possible for work to be resumed in the mines of those operators who are willing to grant the higher rate to their employees. The members of the executive board opened their special session at state headquarters here.

At a conference of operators, President Green said he would expedite individual settlements as rapidly as possible and that any personal feelings he might have would be kept in the background. The scale to be signed is identical with that signed by all the operators of the interstate field in 1903. It calls for 90 cents a ton for pick mining, with \$2.36 a day for all inside day labor except such as is provided for elsewhere in the scale. Differing local conditions make changes necessary in the scale for each district. The scale will be signed for two years from April 1.

All mines in Ohio were closed down Monday because of the holiday observance of the installation of the 8-hour day. Tuesday saw the real beginning of the strike and as on Monday, the mines of all companies, including those willing to pay the higher scale, were closed. Expectations are entertained that the mines of the latter can be opened next Monday.

PRESIDENT MITCHELL
Discusses the Situation in the Soft
Coal Fields.

New York, April 3.—President Mitchell appeared in a cheerful mood when spoken to regarding the bituminous situation. He said everything in the soft coal fields is working out to the satisfaction of himself and the miners in that territory. On the way from Indianapolis to New York, the miners' president received telegrams at various stations informing him of the progress of affairs. On his arrival at his headquarters here he was given another large batch of messages. He said that more than 100,000 soft coal miners had already been granted the 1903 scale and predicted that by the end of the week fully 80 per cent of the bituminous workers will have been given the 55¢ advance in wages. He thought that within 45 days every soft coal mine where the men are organized will be working on a union basis.

Committees representing the anthracite mine workers and the operators are in conference here today. Both sides appear hopeful, a feeling prevailing that some way out of the difficulty will be found.

In Anthracite Field.
Philadelphia, April 3.—There is a complete suspension of mining operations in the anthracite region in accordance with the order issued last week by President Mitchell of the United Mine Workers of America, and the scale committee of that organization, with the solitary exception of the Oxford colliery, a small independent operation near Scranton, which employs about 300 hands with a daily capacity of about 1,200 tons. This mine was kept in operation during the strike of 1902. Every colliery is open as usual and in readiness for the workers, but there is no response to the blowing of the whistles other than the appearance of the engineers, firemen, pumpmen and others whose presence at the mines is necessary to preserve them from injury and who were exempted in President Mitchell's order.

No Strike in Pittsburgh District.
Pittsburgh, April 3.—There will be no strike of the bituminous miners in the Pittsburgh district, according to Francis L. Robbins, of the Pittsburgh Coal company. Mr. Robbins officially announced that he had signed the scale of 1903, and among the other signers were the Monongahela River Consolidated Coal and Coke company, the Ellsworth Coal company, the Crescent Coal company, the Mifflin Coal company, the Peoples' Coal company, the Marine Coal company, the Steen Coal company, the Vesta Coal company,

COURTMARTIAL FINDING IN CASE OF MAJOR DAVID D. PRICE HAS NOT AS YET BEEN ANNOUNCED

Major David D. Price.

NEW YORK, April 3.—Major David D. Price of the United States artillery corps, who was charged with conduct unbecoming an officer, was accused of intoxication and of violating the pledge of total abstinence. The findings of the court martial are now in the hands of General Grant, commanding the Department of the East, for his approval, but have not as yet been made public. The case has just been concluded.

The Dilworth Coal company, and the Mansfield Coal and Coke company. These companies represent thirty million tons, or over three-quarters of the coal mined in the Pittsburgh district.

Refuse to Operate Mines.
Cleveland, O., April 3.—Forty operators, representing eastern and central Ohio coal companies, held a meeting here and after declaring their intention of refusing to operate any of their mines, passed resolutions condemning the action of F. L. Robbins of the Pittsburgh Coal company, and independent operators of the Pittsburgh district.

TO SOLVE LIQUOR TRAFFIC QUESTION

Columbus, April 3.—Joe Miller will devote the greater part of the next two years to achieving his fondest ambition. Joe is the representative for the Ohio Brewers in Ohio Assemblies. His ambition is to solve the liquor problem. The Legislature at the next session is expected to be the instrument of solution, but the plan will be Miller's. Miller says he is informed by Attorney Gen. Ellis that it would be possible to oblige saloon-keepers to furnish a bond for good behavior, and a forfeiture or the bond to bar them forever from saloon business. This constitutes one of the steps through which the evils of the traffic would be eliminated by his system.

SENATOR LONG ON RAILROAD RATE BILL

Washington, April 3.—Senator Long of Kansas today spoke on the court review amendment to the railroad rate bill, agreed upon Saturday by certain senators in conference with Roosevelt, which he introduced in the senate yesterday. He read from decisions of the supreme court showing that the power of the federal government to regulate interstate commerce is equal to the power of a state to regulate its domestic commerce, and contended that if the state can fix rates, then congress could do the same in the regulation of interstate commerce. He agreed with Senator Knox that there should be no question of the right of a carrier suffering injury by an order of the commission, to sue the commission in the United States Circuit court.

RAILEY'S AMENDMENT.
Washington, April 3.—Senator Bailey introduced in the senate an amendment to the railway rate regulation bill, providing that express and sleeping car companies shall be considered as common carriers.

ROTTERDAM IN WASHINGTON.
Springfield, Mass., April 3.—At the Jefferson banquet of the W. L. Douglass club last night, ex-Congressman John H. Taylor of Worcester, said: "A United States senator recently said to me, 'It is so rotten in Washington that when the roll is called in Congress I don't know whether to say present or not guilty.'"

WORRY ABOUT THE LEGISLATURE

DOES NOT ENTER AS A FACTOR
IN GOVERNOR PATTISON'S
ILLNESS.

The Stricken Executive Is Honored by
Both Houses of the General As-
sembly Monday.

Columbus, April 3.—Governor Pattison's spells of restlessness are apparently becoming more frequent. There was greater reliance on the part of the members of the executive house-hold this morning concerning the governor's condition than has been displayed at any time during the long illness.

This increased restlessness has discouraged his friends. The family members still talk of getting the governor back to Maumee, his country home, at the earliest opportunity. The governor is said to have an unusually good appetite for one so sick. He craves larger quantities and more substantial food than he is allowed, but he is held down to a strict diet.

Dr. E. J. Wilson and O. P. Holt issued the following bulletin at 10:15 a. m.: "Governor Pattison had a restless night. He takes nourishment well and is gaining slowly. Pulse 90, respiration 20, temperature normal."

Columbus, April 3.—If there was worry on the part of Governor Pattison because of the General Assembly, the final adjournment of that body Monday may have a tendency to remove that care. The sunshine, too, has come, and the winter chill is going from the air. No material change is reported in his condition, however, though the bulletins have a more hopeful tone. It can be said that if there has been any improvement in the past week it has been very slight. The last feature observed by medical men is that the patient is resting well. Yesterday afternoon the attending doctors said that the outlook was encouraging, the previous night having been passed without any disturbance, permitting an increase in strength.

Monday the governor's son continued the opinion that the patient might soon be moved to Maumee, but this has not been verified by the doctors.

In both branches of the General Assembly the sympathy of the members was officially expressed. In the House Representative Howard Peers, of Lima, offered a joint resolution expressing this feeling, and with it the hope that speedy recovery would come to the stricken sufferer. It was passed unanimously, and upon reaching the senate was taken up on its order on motion of Senator Oran F. Hayes of Springfield, the Republican leader. This once he moved that it be adopted by a rising vote as a mark of respect and love for the stricken governor. This was done, and the clerk called a unanimous vote upon the record.

Lieutenant Governor Harris, after the adjournment, announced that he

will leave for his home in Eaton within a couple of days, a thing that is taken to mean that there is no apprehension on his part that there is danger that he will be summoned soon for active duty.

RATE BILL.

Senator Long Offers Amendment
Agreed on at White House.

Washington, April 3.—The amendment to the house railroad rate bill agreed upon at the White House Saturday by friends of the bill, providing for a limited review of orders of the interstate commerce commission, was offered in the senate by Mr. Long of Kansas, but he was not able to get the floor to make his speech on the bill. The principal speech was made by Mr. Fulton of Oregon, who spoke for the bill. It was a legal argument on the constitutional questions involved in the legislation and interruptions were so frequent that the speech amounted to a debate on law points, where the speaker divided the time with a majority of the lawyers of the senate.

Elkins Satisfied.
Washington, April 3.—President Roosevelt and Senator Elkins, of West Virginia, chairman of the interstate commerce commission, had a conference regarding limited rate review amendment which was agreed upon last Saturday at a conference in the White House. Senator Elkins assured the president that with the amendment agreed upon, the Hepburn bill would be reasonably satisfactory to him.

SHORTEST

Platform on Record Adopted by the
Kansas Republicans—Contains
Only Seven Words.

Topeka, Kas., April 3.—Republicans of Trego county held a brief convention Monday and adopted a platform of seven words, which is probably the record for brevity in the United States. This is the entire platform:

"Resolved, That we let well enough alone."

This means that the Republicans of Trego county are satisfied with the work of President Roosevelt, Governor Hoch and Congressman Reeder and do not desire a change. The men of Trego are mostly prosperous farmers, and very busy preparing to put in their spring crops, and the delegates say there was no use framing up a long winded platform when the one they adopted tells the story.

INTERNAL REFORMS

Requested by the Conference of the
Sultan of Morocco.

Algiers, April 3.—The sitting of the conference on Moroccan reforms, though primarily devoted to the framing of the protocol, assumed importance owing to various delegates moving resolutions directing the attention of the sultan of Morocco to the necessity of internal reforms. Mr. White, the chief of the American delegation, with the support of the Duke of Almodovar, president of the conference, directed attention to the unfavorable situation of Jews in Morocco.

SENATOR BURTON'S ATTORNEYS ARGUE

Before the Supreme Court of the U. S.
to Help Their Client From
Serving Prison Term.

Washington, April 3.—The argument of the second appeal of Senator Burton of Kansas, to the Supreme court, was heard before a full bench today. Burton is seeking to avoid a penitentiary term awarded upon his second conviction at St. Louis, of having exercised influence as a senator at the postoffice department in behalf of the Rialto grain company, against which proceedings were pending for having used the mails to defraud. Ten lawyers argued for the court's benefit, the several points on which Burton alleges error committed in his trial. One argument was that congress might pass a law making it a crime for the president during his term of office, to try to influence legislation. Such a law it is said could hardly be constitutional.

Anti-Pass Bill.

Des Moines, Ia., April 3.—The anti-pass bill is now virtually a law or will be as soon as Governor Cummings can affix his signature to the measure. The house by a vote of 75 to 41 passed it from the amendment which would have required legislators to pay their fares home and the bill is now ready to go to the governor. It prohibits all public officials, including federal officers, from accepting favors from the railroads.

WELLS WAS RENOMINATED.
St. Louisville, April 3.—Congressman Wells was renominated for Congress today by the Sixteenth district Republican congressional convention. The resolutions endorsed Roosevelt and the United States against without the looked for fight.

DEMOCRATS WON IN MICHIGAN

Chicago Votes on Municipal Ownership
Today—Election Results
in Minnesota.

Chicago, April 3.—The question of municipal ownership of the city's waterways has been submitted to the popular vote and the result is awaited with great interest. The contest has been one of the most bitter that has been waged in this city in many years. Members of the municipal ownership league have been detailed to remain at every polling place in the city to watch over the interests of the "little ballot" as the ticket bearing the three propositions, relative to municipal ownership which are to be voted for, has been named. Representatives of factions which are opposed to municipal ownership also have watchers in every precinct. The usual party lines which exist at an ordinary election in this city have been largely obliterated. The advocates of municipal ownership expressed the utmost confidence in the result, declaring that the voters of Chicago will favor it by an overwhelming majority.

Results in Michigan.
Detroit, Mich., April 3.—Except in the city of Grand Rapids where G. E. Ellis, Republican, was elected mayor, the Independent and Democratic tickets seemed to have the advantage in the greater number of city elections through the state. The returns indicate that the people voted decisively in favor of having the next legislature make provision for the election of delegates to a constitutional convention to provide a substitute for the present legislation, which dates back to the year 1850.

Minnesota Elections.
St. Paul, Minn., April 3.—Municipal elections were held in numerous cities in Minnesota, North and South Dakota. Most of the contests were based purely upon local issues. In Minnesota the struggle was principally between the license and no license element. In Fargo, N. D., J. A. Johnson was elected mayor for the fifth term. At Yankton, S. D., the Republicans elected their mayor. At Grand Forks, N. D., George F. Duls, Independent, was re-elected mayor.

HELD THE TRAIN

Until a Kentucky Woman Made Ar-
rangements to Care for the
Baby Born On It.

Urbana, Ill., April 23.—While a Big Four passenger train was held an hour in Urbana, near Urbana Sunday night, a baby was born to Mrs. C. L. Dobyns, a young Kentucky woman, who was traveling from Mayeville, Ky., here to join her husband.

Not a passenger grumbled at the wait, and a big cheer went up from the group outside the coach when the announcement was made that mother and child were doing well. When a physician said it was time to move the train moved on. It was stopped in Urbana, near the future home of the young mother, where the husband had his first look at his son.

Monday the child was christened "William Emory" in honor of Conductor William Von Wiler and Operator Emory Peterson, who was specially considered to the mother in her time of trial.

In Southwestern District.

Kansas City, April 3.—All the coal mines of Kansas, Missouri, Arkansas, Indian Territory and Oklahoma are idle, the miners having struck for payment of the scale of 1903. These mines employ 25,000 men. It is expected that numerous operators will sign the scale soon, although none has done so yet. Operators who have mines in more than one district must sign in all the districts before opening any mine. The miners are in a prosperous condition, having been employed steadily for a long time, and the best of feeling prevails between them and the operators. The celebration of the 8-hour anniversary was general throughout the southwest and the miners turned out in large numbers.

FRACTURED FRIENDS SKULL.

Whiteland, W. Va., April 3.—Smacked with a chair because he had been detected in a well-laid bet, George Otto Fulton, a butler, last night, it is claimed stole softly to the home of Frank Gruber, professional wrestler, and laid him out with a black. Gruber is known all over the country, and greeted with the loudest applause for his feat. He is in a dangerous condition, his skull being fractured.

SECOND PEACE CONFERENCE.

Washington, April 3.—Baron Roden, the Russian ambassador, today presented to the state department a note stating that the Russian government agreed with the government of the Netherlands that the second Hague peace conference should assemble the first half of July. The note enclosed a resume of subjects which the two promises to submit to the conference for discussion.

DIVINE POWER NOT CLAIMED

By Voliva the New Head of
Zion's Church

HE ANNOUNCES NEW POLICY

IN THE FUTURE THE CHURCH WILL BE
A CO-OPERATIVE COMMUNITY

Most of Zion's Buildings Will be Mort-
gaged to Procure a Million
Dollars.

Chicago, April 3.—General Overseer Voliva, Deacon W. D. Yeager of the Cincinnati diocese of the Christian Catholic church, and other former advisers of the deceased John Alexander Dowle, today adopted a new order and formulated a financial policy to save the residents of that community from suffering from a lack of the necessities of life. In the future, according to Voliva, the church will be conducted as a Christian co-operative community. "We shall continue to respect John Alexander Dowle for the good he has done, but we now see that he was never possessed of divine power," said Voliva. "If he were a prophet he would have foreseen the downfall of Dowle in Zion and shunned the evil ways which caused his detestment from the high position he held. We don't believe now any man among us is the direct authorized representative of divine will, but that we are all humble workers for the salvation and common good."

Voliva's disclaimer of divine power for himself and his policy of frankness has won the full confidence of the Dowleites and they are united in their support of him. The financial plans adopted provide for the mortgaging of most of Zion's buildings, and industries to procure \$1,000,000. The liabilities outside of the claims at the Zionites who will wait until the industries repay them, are said to be less than a million dollars. The estimated value of all Zion assets is from \$2,000,000 to \$5,000,000. Deacon Yeager, Overseer Voliva and other leaders will begin their efforts to raise money by a revival in Cincinnati. They will preach there Sunday and appeal to members of the church to assist them. Capitalists in Chicago, New York and Cincinnati will be asked to advance the funds. No word has been received from Dowle up to 10 o'clock this morning in reply to the telegram of yesterday beseeching him as leader.

YOUNG LAWYER WAS ARRESTED

On a Charge of Stealing \$100,000
Worth of Jewelry, Pictures,
and Securities.

New York, April 3.—After a pursuit of four weeks by the police of three cities, central office detectives arrested Thomas J. Wainwright, describing himself as a lawyer of Boston, who is charged with robbing the residence of Dr. Nicholas J. Pinault of Minneapolis, of jewelry, silverware, pictures and securities to the value of \$100,000. The police say that Wainwright, who is 29 years old and apparently a man of excellent education, is known by a dozen aliases and is one of the most accomplished criminals in the country. Dr. Pinault is one of the wealthiest citizens of Minneapolis and his home one of the finest in the city.

HIS SISTER

Instantly Killed by the Little Boy,
Who Was Playing "Holdup"—
Parents at Church.

Bellefonte, Ill., April 3.—Henry Skarr, aged 5, while playing "holdup" shot and instantly killed his four-year-old sister, while the parents of the children were absent. Soon after the parents departed the boy found a revolver his father kept in the bureau as protection against burglars who have been raiding homes here. He commanded his sister to throw up her hands, and in his excitement pulled the trigger, the bullet crashing through the brain of the little girl.

When the parents returned they found the baby girl dead, and the boy, whooping and badly frightened, hiding in a corner of the bedroom.

CONFIRMED PROOF.

Residents of Newark Cannot Doubt
What Has Been Twice
Proved.In gratitude for complete relief
from aches and pains of bad backs—
from distressing kidney ills—thous-
ands have publicly recommended
Doan's Kidney Pills. Residents of
Newark who so testified years ago,
now say their cures were permanent.
This testimony doubly proves the
worth of Doan's Kidney Pills to
Newark sufferers.E. Frank Edwards, plasterer, of 152
Ash St., Newark, O., says: "I had
backache and had it bad. For several
years I was suffering from sharp shoot-
ing pains in the region of the kidneys
and a dull aching and weakness in the
back which was becoming very serious.
I tried remedy after remedy without
finding relief and I nearly lost hope
when I began using Doan's Kidney
Pills, obtained at Crayton's drug store.
It was a gratifying surprise to find af-
ter a few doses of this remedy the pain
seemed somewhat abated and I con-
tinued the treatment for some little
time, using several boxes. I was
thoroughly cured. I gave a testimonial
at that time recommending Doan's
Kidney Pills to others. It is now eight
years since I made that statement, and
I am glad to be able to say that the
cure was permanent."For sale by all dealers. Price 50

10-24d S. L. BENEY, Prin.STATE EXAMINER
MAKES HIS REPORTSUGGESTS CHANGES IN ORDINANCES SO MORE FINES CAN
BE TURNED TO CITY.Gives Figures Showing Big Differ-
ences in Money Turned to the
County and City Treasury.In the report of the state examiner,
W. T. Huntsman, submitted during
March, covering a period of two years
up to February 14, 1906, the exam-
iner makes special references to the
amount of money paid over to the
county, from the amount collected in
fines.The examiner says:
"You will note that the fines and
costs from the mayor's court that
went into the city treasury amounted
to only \$966.55 for twenty-five and
one-half months, while the county
treasurer received \$2,992 from Janu-
ary 1, 1904 to June 30, 1905. Since
June 30, 1905, to February 28, 1906
the county treasury received fines
from the mayor's court amounting to
\$916, or a total since January 1,
1904, of \$3,918. Add to \$966.55, the
amount received by the city between
February 14 and February 8, 1906,
or \$554.40, would make a total of
\$1021.95 received by the city treas-
urer as against \$3,918 received by
the county treasurer for fines.""This seems to indicate that the
council should amend the existing
ordinances or pass new ones so that
more of the cases would be brought
under the city ordinances, thereby
placing the fines and costs in the
treasury of the city to assist in main-
taining the city department, rather
than in the county treasury.""In regard to the condition of af-
fairs in the office of the city auditor,
I can say I found things in excellent
condition. I want to bring out the
fact that much hard work has been
done and good judgment has been ex-
ercised in caring for the business of
the city.""This being my first examination of
the city of Newark, I cannot make
any comparisons, but from my ob-
servation and reference to records of
former years, I feel safe in saying
that the business of the city is in a
better condition than ever before."This report was submitted to the
department of the auditor of the
state. Bureau of inspection and sup-
ervision of public officers.

Newspaper Office Scorched.

Buffalo, April 3.—The Buffalo Even-
ing Times building, a four story brick
and stone building, was badly dam-
aged by fire. The loss is estimated at
\$200,000. The fire started in the litho-
graphing department on the second
floor and had gained considerable
headway before it was discovered. The
explosion of carboys of acids and oils
in the lithographing room scattered
the flames in all directions.

Mines in Operation.

Fairmont, W. Va., April 3.—Not a
single man left work in the Fairmont
soft coal region on account of the
strike ordered in some of the sections
of the organized fields. The miners
were run to their ordinary capacity.
Inauguration of the 8-hour day has
never been recognized in this region
and no attention was paid to it.

Mrs. Roosevelt in Cuba.

Havana, April 3.—Mrs. Roosevelt
and her children called on President
Palma. President Palma sent a state
coach to the wharf to receive Mrs.
Roosevelt and the children and an
aide de camp escorted them to the
palace. Minister Morgan, Secretary
Sleeper and Consul General Steinhardt
also accompanied Mrs. Roosevelt to
the palace.Returns from every county in Arkan-

STATE NEWS

Colonel Furry Dead.

Columbus, O., April 3.—Colonel Wil-
lam S. Furry, a veteran correspondent,
editorial writer and contributor to
magazines, died at his apartments
here, aged 74 years. He had suffered
from a tubercular trouble for some
time. After graduating from Antioch
college Colonel Furry enlisted in the
Union army as a private soldier. But
before going to the front he received
a commission from the Cincinnati Ga-
zette as war correspondent for that
newspaper. He then went south and
hunted up his friends, General Ketter
and General John Beatty. Near the
end of the war, on the recommenda-
tion of General Grant and others, he
received a commission, signed by
Abraham Lincoln, giving him the hon-
orary title of colonel.

Found Dynamite.

Cleveland, O., April 3.—The Leader
says: "Enough dynamite was found
under a hoisting engine in the Taylor
Arcade in Euclid avenue to wreck
that building as well as half a dozen
others which cluster about it. Hur-
ney Claypool, a night watchman in
the employ of the American Bridge
company which is building the Taylor
Arcade, confessed to detectives that
he placed the dynamite where it was
found because five of his fellow watch-
men had been discharged."

Judgment Against Bridge Men.

Fremont, O., April 3.—Judgments
aggregating \$65,670 were awarded H.
L. Stewart, K. F. Briggs and Kay Mon-
nette, taxpayers, in their suit against
the Massillon Bridge company, for
bridges alleged to have been illegally
sold in Crawford, Erie and Seneca
counties. H. C. Deran, attorney for
the plaintiffs, says an execution will
be issued at once, but the attorneys
for the bridge company will probably
enjoin the execution.

Track Disappears.

Ashtabula, O., April 3.—A section
of track 150 feet in length on the
Franklin division of the Lake Shore
road near Hadley, Pa., suddenly sank
into the earth and as a result traffic
on the line is tied up. It is supposed
that quicksand caused the trouble.
The disappearance of the track was
discovered just in time to flag a fast
passenger train which was nearing the
spot.

Boys Electrocutted.

Zanesville, O., April 3.—While at-
tempting to save his brother, who had
become entangled in a broken guy
wire, Carl Urban, aged 12 years, stepped
into a mudhole, thus completing a
ground circuit that electrocuted him
in the presence of hundreds of school
children in front of the Grant school.
Paul Urban, the younger brother, is
still unconscious and will probably die.

Given Life Sentence.

Warren, O., April 3.—Charles C.
Dalgen of West Farmington, who killed
R. K. Lewis on January 19, pleaded
guilty to second degree murder and
was given a life sentence. Lewis was
a wealthy farmer, capitalist and local
politician.

Seeks Change of Venue.

Upper Sandusky, O., April 3.—Wil-
liam Miller, one of the Johnson alleged
murderers, who was granted a new
trial, had his case arraigned for Mon-
day, May 7. A motion for a change of
venue will be argued before Judge
Duncan of Findlay.

Brakeman Crushed.

Alliance, O., April 3.—Norman Hen-
derson, this city, a Pennsylvania
Lines brakeman, aged about 35 years,
was crushed between cars at Massillon
Junction, and almost instantly killed.
He is survived by a widow and six
small children.

Machine Plant Burns.

Akron, O., April 3.—The plant of
the Falls Rivet and Machine company
of Cuyahoga Falls was almost totally
destroyed by fire, throwing 200 people
out of employment. The loss is es-
timated at \$100,000 nearly covered by
insurance.

Shooting Affray.

Portsmouth, O., April 3.—Police, ar-
rested Thomas Bicket, charged with
shooting Kendall Monroe at New Bos-
ton. Bicket's brother Frank was
also taken into custody. Monroe is
still alive, but his chances for recovery
are slight.

Pistol Duel.

Nelsonville, O., April 3.—In a pistol
duel during which several shots
were exchanged, William, alias "Shot-
gun" Smith, shot George Somers in
the left thigh, inflicting a serious but
not fatal wound. Smith is in jail.

Resists Arrest; Killed.

Cincinnati, O., April 3.—While re-
sisting arrest on a minor charge, Rob-
ert Johnson, colored, was shot and in-
stantly killed by Marshal Webster
Roberts, also colored, at Wyoming,
near here.

Ask Wage Increase.

Mt. Vernon, April 3.—The laborers
at C. & G. Cooper company's plant
have asked for an increase of from
\$1.50 per day to \$1.75. Rents have
gone up since the boom, and the la-
borers feel that they are entitled to
a corresponding increase.

Falls on Track During Fit.

Mt. Vernon, April 3.—John Smith
of Millwood had an epileptic fit on
Monday afternoon while walking on
the B. & O. track and fell between
the rails. Several glass workers saw
him fall and pulled him off the track
just as a passenger train came
around the curve south of the city.Smith's head was cut severely and
he is now at the hospital in a critical
condition.

Eight Bands Furnish Music.

Shawnee, April 3.—The county con-
vention of American Federation of
Musicians was held here Monday.
Three hundred delegates, accompa-
nied by eight bands, were in attend-
ance. The town was in gala attire.
Special trains brought large crowds
of visitors. E. H. Larned of Corning
and Mr. Metcalf of Murray City, were
elected delegates to the national con-
vention to be held in Boston.

Missing Man's Bond Forfeited.

Mt. Vernon, April 3.—The motion
for a new trial for Allen White of
Lancaster, who was convicted of
horse stealing here several weeks ago
was withdrawn by his attorneys.
White is missing and Judge George
Coyner has forfeited his \$200 bond.

Search for an Heiress.

Cleveland, April 3.—Search for a
missing girl, who is heiress to a
large fortune, is being made here.
The child, Ruth Anderson, is believed
to have been kidnapped at Norfolk,
Va. She is the daughter of C. D.
Lockhart, a relative of Charles Lock-
hart of Pittsburgh, the Standard Oil
magnate, who died recently, leaving
\$180,000,000.

Wanted for Swindling.

A telephone message from Mt. Ver-
non Monday night from the business
manager of The Independent, Mt. Ver-
non's daily, asked that Mr. and Mrs.
C. B. Laselle and J. H. McComb, all of
that place, be arrested and held until
officers from Mt. Vernon could take
charge of them. The manager stated
that the three people had swindled the
firm out of \$125, but neglected to say
in what manner. Chief Sheridan
states that he saw three persons
answering to the description given by
the Mt. Vernon man, at the Interurban
station Sunday night and they were
asking when the first car left the city.
An effort will be made to locate them.

Deafness Cannot be Cured.

By local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure Deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed con-
dition of the mucous lining of the Eus-
tachian Tube. When this tube gets in-
flamed you have a rumbling sound or
imperfect hearing, and when it is en-
tirely closed Deafness is the result, and un-
less the inflammation can be taken out
and this tube restored to its normal con-
dition, hearing will be destroyed forever;
nine cases out of ten are caused by cat-
arrh, which is nothing but an in-
flamed condition of the mucous surfaces.
We will give One Hundred Dollars for
any case of Deafness (caused by cat-
arrh) that cannot be cured by Hall's
Catarrh Cure. Send for circulars, free.

Locomotive Let Go.

Cleveland, O., April 3.—While a
westbound Lake Shore freight train
was speeding along near Amherst, O.,
the crown sheet of the locomotive ex-
ploded and blew the fireman and head
brakeman out of the cab. The fireman,
A. C. Stage of Toledo, was probably
fatally injured. The train ran a quar-
ter of a mile before the engineer could
bring it to a halt. Engineer Raiman,
who was standing at one side of the
cab, miraculously escaped injury.
Kelly, the head brakeman who was
riding in the engine cab, was seriously
scalded but will recover.

FELL FROM HORSE LAST OCTOBER

AND SINCE THAT TIME HOMER FEASEL HAS BEEN INSANE

Judge Brister Gave Formal Judgment and He Was Taken to State Hospital.

A very sad case was disposed of by the Probate court on Tuesday morning, when an inquest of lunacy was held on Homer D. Feasel, the 21-year-old son of Mr. and Mrs. Feasel, a prominent and highly respected farmer of Hartford township. The testimony developed the fact that young Feasel was thrown from a horse last October. In falling he struck on his head, and his trouble dates from that time. It is thought that his skull is pressing on his brain, and that an operation will restore the young man to his right mind. He was taken over to Columbus on the 12:15 p. m. train Tuesday, and turned over to the officials of the State Hospital. Mr. Feasel has many friends in Hartford township and throughout the county who will hope for his speedy recovery.

Probate Court.

The case of William Horroby, charged with assault and battery, was called before the Probate court on Tuesday morning, and the case was dismissed. The court, however, ordered him sent to the Boys' Industrial School at Lancaster on a suspended sentence that has been hanging over him for habitual truancy.

Leroy Orake, guardian of Osman C. Drake, an imbecile, has filed an inventory.

In Common Pleas.

The Licking County Commissioners have commenced suit in the Common Pleas court against the Toledo and Ohio Central railway company. The plaintiffs say that they are the duly elected and qualified county commissioners of Licking county, and as such have charge of the public highways of the county; that the public highway commencing in the village of Granville and running south to Union Station is a public highway and county road, known as the Lancaster road; that the road commencing a few rods south of the Lancaster bridge, immediately south of the corporation line of Granville and running in an easterly direction and almost parallel with Racecon creek to Central City and beyond is a public highway and county road. The commissioners say that twenty rods east of where the railway crosses the Lancaster road the railway company has constructed a switch or spur in a southeasterly direction crossing Racecon creek, and the road running from the Lancaster road to Central City east of the Lancaster road to the gravel bank lying south and alongside of the road commencing at the Lancaster road and running to Central City, they have commenced a bridge across the Racecon creek by driving piles about 10 feet apart across the channel of the creek and laying girders and iron railing across the pile; that the piles are so close together that in high water they catch the drift and timber which is washed down the creek, thereby obstructing the stream so that the same is dammed up which raises the water and diverts the course of the stream across the highways.

Plaintiffs ask that the railway company be restrained from reconstructing the bridge across the stream by supporting it upon piles and that it be required to remove the piling and bridge across the stream so constructed and the approaches to the bridge and from any further obstructing the stream. A temporary restraining order was issued by Judge Seward as prayed for.

Transcript Filed.

SUPREME COURT DECIDES CASE

Which Was Taken Up From Licking County and the Decision Will Be Reported.

The case of Samuel S. Devaney against Warren C. Devaney, now up for decision in the Supreme court, which was argued in the Supreme court on the 21st of March by Hunter & Hunter for Samuel S. Devaney and by James R. Fitzgerald for Warren C. Devaney, was decided Tuesday morning by the Supreme court reversing the judgments of the Common Pleas and Circuit courts of this county. The question arose out of the will of old John P. Devaney. The decision is in favor of Samuel S. Devaney, executor. The case will be reported.

OPENING OF LACES EMBROIDERIES TRIMMINGS—Wednesday

A Maze of Handsome Designs
A Myriad of Dainty Traceries
A Rare Assemblage of Beauties

If we had sent our buyer directly to the "Emerald Isle," to "Sunny France," to "Picturesque Switzerland," and to the land of the art-loving Italians, we couldn't have collected a gathering of laces, embroideries and trimmings more exquisite, more desirable, or more adaptable to the season's modes.

The importers of whom we purchased these goods certainly gathered from these famous lace and embroidery-making lands the "fruit of the cleverness and art."

They surprised us, we will surprise you.

Our Spring and Summer stocks have arrived, been unpacked, and are now offering your eyes a feast of the most unusual beauty. Such intricate weaving—such fineness—such graceful traceries were never displayed in this city.

Irish crochet effects, so much desired by the discriminate woman. The ever-popular val insertion and edgings, only expressive of a newer and better beauty.

All are in a diversified assemblage that would bring note to any Boston or New York store, and lace robes, the new lace bridge coats and lace boleros in so many designs as to prove puzzling to choosing.

And the embroideries! Immaculate, snowy white, fresh and fair, every kind you could possibly call for and in every width.

And when you look at the price tags, you will be greeted with the greatest surprise of all. You won't regret an hour or so spend among them. Come!

NEWARK'S BIG DEPARTMENT STORE

ADDITION TO THE SANITARIUM

WILL BE BUILT AS SOON AS THE
BIDS FOR WORK ARE DE-
CIDED UPON.

The Institution Will be Arranged to
Accommodate Forty or More
Patients.

The Newark Sanitarium on Tuesday definitely announced that owing to the growth of the institution, and the rapid increase in the number of patients regularly cared for in the West Main street quarters, the stockholders at a meeting held recently, decided to construct an extensive addition to the present structure.

Dr. R. T. Ragsdale, secretary and general manager of the institution, told an Advocate representative Tuesday that the new addition will be constructed at the very earliest possible date, or in other words, as soon as bids can be received for the specifications.

The additional structure will have accommodations for about thirty patients, with full equipments for the convenience of the patrons of the institution. It will be directly connected with the present building. In the rear, beginning at the east line of the property and extending for a distance of 64 feet to the east with a width of 32 feet. The barn which at present occupies the rear of the grounds, will be removed and the nurses' quarters, which have been located across the alley, will be situated in a part of the addition.

This addition will give the Sanitarium accommodations of baths, operating and reading rooms.

The building will be arranged so as to accommodate the ambulances bringing patients, so that it will not be necessary to lift them up steps to enter.

The rapid growth of the institution which makes this change necessary, is indeed remarkable. The present conditions are such that the number of patients who desired treatment at the Sanitarium could not be accommodated, the entire institution being filled. During the past month there were twelve major surgical operations performed, and the entire force was kept busy attending to rheumatic patients and those attending for baths.

It is expected that the work of building the addition will commence within a very short time, in order that the increasing number of patients may be accommodated.

THE JOY OF A GOOD CIGAR.

J. W. Collins & Son Tell How Smokers Can be Sure to Get Their Money's Worth.

"How can one be sure of getting his money's worth in buying a cigar?" asked an Advocate reporter of Mr. Richard Collins of the drug firm of J. W. Collins & Son.

"I'll tell you how to be sure. Just buy a Wadsworth Bros' Chico. This cigar is always the same—a good, honest, long Havana filler, so that it always burns with a firm, solid ash, the best sign of a good cigar."

The Chico burns with a fragrant, like that of the Carolina perfecto, a 25¢ cigar, but it costs only 5¢. One best customers are smoking the Chico, and when they stop in front of the cigar case, they say, "give us some more of those good cigars." I pass out the Wadsworth Bros' Chico, and they go away happy."

Try a Chico yourself, and see how good it is. Apr 2-5-10.

AMERICAN ATHLETES SAIL FOR ATHENS

New York, April 1.—The thirty-two representative American athletes, who are to compete in the international Olympic games in Athens from April 22 to May 2, the greatest sporting event in the history of the world, sailed for Naples today on the steamer *Barbarossa*. They were given a rousing send-off. When the big liner began to back out from her pier loud cheers of sport lovers bade them bon voyage with the music of bands and choirs. A flag with a party of enthusiastic on board accompanied the *Barbarossa* as she sailed. The athletes are in fine fettle and their friends say they will sweep everything in sight. The *Barbarossa* will take two weeks on the voyage to Naples. During this time the athletes will try to do some work. There will be daily sprints on the decks for those who are not out of commission.

GRANVILLE NEWS

Granville, April 2. A number of much needed and attractive improvements are to be made on the University Campus in a short time, and plans for them are now being perfected. Cement walks will be laid, in accordance with the plans of the landscape gardener recently employed, and some of the large trees will probably be moved out of the way of these walks onto other parts of the campus. At the foot of the stone steps leading from the top of the hill to the base, a high arched stone gateway is to be built, excavation for which is now being made. Denison owns an extensive campus, which offers excellent opportunity for the application of the art of landscape gardening, and it is expected that by next fall the many improvements now designed will add to the campus a picturesque and stately beauty which he old campus deserves and needs.

Tuesday evening Mrs. C. J. Rose entertained in a very delightful manner, at her home on Broadway a number of young women of the college who are spending their vacation in town. Chocolate and wafers were served during the evening, which passed all too quickly for the guests.

NEW LAW FIRM.

Messrs. Carl Norpell and nephew, Rich Norpell, have just formed a law partnership under the firm name of Norpell & Norpell. The new firm will occupy the Norpell offices in the Lansing block together with the rooms until recently used by Russell & Sparks. Mr. Norpell having formed a partnership with Lawyer J. W. Horner, and Mr. Sparks having entered the real estate business.

Mr. Carl Norpell, who was Probate Judge W. A. Horner's deputy clerk for several years, is a deputy clerk on county law, and a member of the Law for Norpell & Norpell and Mrs. Marie Butcher's photographer, for the firm.

Neither of the members of the new firm needs introduction to the Newark public. The senior member has for years been prominent among lawyers of the Licking county bar, and the junior member, who has been engaged in law practice for several years, was formerly secretary of the Licking County Building Association.

"Crumpy" Again Fined.

The police department baseball team's mascot, His Highness, "Crumpy" Frazier, was locked up again Monday afternoon on the same old charge. Mayor McCleery feared "Crumpy" would not be on hand when the first game was played, so he put him away with a fine of \$5 and costs.

Disorderly at Skating Rink.

Two young men who became disorderly at the skating rink Monday night, were lodged in jail on a charge of drunk and disorderly. One of the young men was drunk and when he was ordered from the floor the second man took up the fight and both were arrested. The hearing was set for Tuesday afternoon at the mayor's office.

At Palace Rink.

The ladies' races at the Palace rink in East Newark are making a decided hit with the young people across the river. Miss Mable Somers won the race Monday night, defeating Miss Buckingham in a close contest. The winners of each night's race will race in a grand contest Saturday night for the prizes offered by the management.

Clean the Streets.

A certain well known citizen brought from a number of listeners the remark, "Them's my sentiments," when he said, "In order that Newark have clean streets it seems that people on the square will have to realize that 'dust' don't art, and unto dust shall thou return." When the street cleaners get to work during business hours.

Coming from Indiana.

Rev. O. L. Daily, the Baptist minister who will soon take up his residence in this city, coming here from Indiana, has purchased a fine house and lot in North Fourth street, opposite the property of James Fitzgibbon. The property was purchased of the Newark Real Estate and Improvement company for a consideration of \$1500.

Baby Mine

Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery. Mother's Friend is the only remedy which relieves women of the great pain and danger of maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of Mother's Friend. "It is worth its weight in gold," says many who have used it. \$1.00 per bottle at drug stores. Book containing valuable information of interest to all women, will be sent to any address free upon application to BRADFIELD REGULATOR CO., Atlanta, Ga.

USER OF NEW SPELLING

Simplified System Adopted by
Justice David J. Brewer.

FOLLOWED WHENEVER POSSIBLE

Associate Justice of the Supreme
Court Has Agreed to Write His
Opinions According to Reform
Methods of Orthography—Twelve
Words to Be Changed as a Begin-
ning—More to Be Added Soon.

"I have agreed to use the new sim-
plified method in spelling in writing
my opinions," said Associate Justice
David J. Brewer of the United States
supreme court in Washington, when
asked recently by the New York World
concerning his joining in the new
movement. "For some time I have fol-
lowed the practice of shortening my
spelling of certain words, as 'altho',
'thru' and 'program.' Of course I can-
not control the actions of the supreme
court in the matter of spelling, but
have adopted the new method for my
own use.

"The spelling of many educated men
is atrocious. They never will learn to
spell according to the rules of the Eng-
lish language. But if the simplified
method is adopted I believe it will help
them.

"There is no reason why we should
not spell words the way they are pro-
nounced. The adoption of this system
would save time and labor, and after
the prejudice against the reform has
disappeared some progress will be
made in this direction.

"Of course the new system will seem
strange until the people become accus-
tomed to it. So did the old style of
spelling used by the people of a gener-
ation ago. It was customary to spell
the words 'labor' and 'honor' with the
letter 'u,' and the old fashioned 'labour'
and 'honour' seem as strange to us as
will 'though' and 'although' to the peo-
ple of a generation hence.

"The simplified spelling board has
organized a society for the purpose of
bringing about a reform in spelling.
The head of this organization is Brand-
er Matthews, and the other officers of
the organization are leaders in educa-
tional and other lines of work. I am
a member of this society. We have
agreed whenever possible to use the
new method of spelling. There are
twelve words which the members of
the organization have agreed to spell
in the new way when they remember
to do so. The words are 'program',
'decalog', 'prolog', 'tho', 'altho', 'thru',
'thorofare', 'thru' and four others which
I cannot at this moment recall.

"These simple changes will not shock
any one, and we will gradually be-
come accustomed to using the words
in their new form, and in a few years
every one will adopt this plan. This
movement has been on foot for some
time. In a short time it is the purpose
of the society to enlarge the number
of words which will be spelled the
way they are pronounced.

"For years my brother, who was
connected with a college in Iowa, was
interested in this movement. He vis-
ited the Sandwich Islands, and my
niece was called on to write a com-
position, the subject being the 'Sand-
wich Islands.' She came to me for
some information, and I referred her
to my brother. He wrote her an inter-
esting letter on the subject, using the
new method of spelling. This letter
gave much valuable information that
other scholars could not obtain and
was the means of my niece winning
the prize. For days she studied the
letter and spent much time in commit-
ting it to memory. She was asked
why she did not read the letter or sub-
mit it in the competition. She replied
that she was ashamed to do so, as it
would show the other scholars what a
'poor speller' her uncle was."

Gun Cotton as Fuel.
"Light another 100 foot candle of
condensed gun cotton! We must make
the next mile in less than a minute!"

That command or something like it
will be given by the commander of a
United States torpedo boat in the next
war in which the United States may
unhappily be engaged, writes W. R.
Stewart in Technical World Magazine
for April. It will not mean that, find-
ing his ship in a desperate situation,
the captain has decided to blow him-
self and his whole command out of the
water. It will signify only the adop-
tion as emergency fuel of the wonder-
ful new compound, "motorite," a secret
composition of gun cotton and
nitroglycerin, invented by Hiram Max-
im, whose "maximite" is the high ex-
plosive now used by the government in
submarine torpedoes. Motorite for fuel
use is packed in long steel tubes and
under forced draft can furnish an al-
most unlimited amount of power for a
short distance.

Trapping to Pay College Bills.
Since Nov. 25 E. M. Wheeler, who
lives near Chatham, Pa., has trapped
three-two muskrats and a much larger
number of muskrats, rabbits, possum
and other less valuable varmints. Mr.
Wheeler informs us, says the Chatham
Record, that he intends to go to Phila-
delphia in April to take a course in
medicine with the money earned from
his winter's trapping.

THREE FACTS

For Sick Women
To Consider

FIRST.—That almost every operation
in our hospitals performed upon women
becomes necessary through neglect of
such symptoms as backache, irregular
and painful periods, displacements
of the female organs, pain in the side,
burning sensation in the stomach,
bearing-down pains, nervousness, diz-
ziness and sleeplessness.

SECOND.—The medicine that holds
the record for the largest number of
absolute cures of female ills is Lydia
E. Pinkham's Vegetable Compound.
It regulates, strengthens and cures
diseases of the female organism as
nothing else can.

For thirty years it has been helping
women to be strong, curing backache,
nervousness, kidney troubles, inflam-
mation of the female organs, weak-
ness and displacements, regulating the
periods perfectly and overcoming their
pains. It has also proved itself in-
valuable in preparing women for
childbirth and the change of life.

THIRD.—The great volume of unso-
lited and grateful testimonials on file
at the Pinkham Laboratory at Lynn,
Mass., many of which are from time to
time published by permission, give ab-
solute evidence of the value of Lydia
E. Pinkham's Vegetable Compound and
Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation
to Women.—Women suffering from any
form of female weakness are invited to
promptly communicate with Mrs. Pink-
ham, at Lynn, Mass. All letters are
received, opened, read and answered
by women only. From symptoms given,
your trouble may be located and the
quickest and surest way of recovery
advised. Mrs. Pinkham is daughter-
in-law of Lydia E. Pinkham and for
twenty-five years under her direction
and since her decease she has been ad-
vising sick women free of charge. Out of
the vast volume of experience in treat-
ing female ills Mrs. Pinkham probably
has the very knowledge that will help
your case. Surely, any woman, rich or
poor, is very foolish if she does not take
advantage of this generous offer of
assistance.

Automobile Accident.
Philadelphia, April 3.—While rid-
ing in an automobile through Haver-
ford, a suburb, E. O. Gowing of this
city was killed and his wife was so
seriously injured that her death is ex-
pected. Mr. Gowing in manipulating the
steering gear caused the machine to
swerve. It crashed into a telegraph
pole and was upset, crushing its occu-
pants. Mr. Gowing died in a few
minutes. His wife is unconscious at a
hospital with concussion of the brain
and internal injuries.

Captured by Posses.
Orleans, Ind., April 3.—Driven to
cover at the home of James Roby, in
the southeastern part of Orange county,
Oliver Haycock and John Roby,
slayers of Harry Smith, deputy sheriff,
were captured after a chase of 40
hours by a posse led by ex-Sheriff
Richard L. Ashbrook. In fear of mob
violence at the hands of Smith's
"friends," the fugitives were only too
willing to surrender and soon after
they were taken in charge Sheriff
Oliver L. Morris and his deputies start-
ed with the prisoners to Jeffersonville.

Jerome's Campaign Fund.
Albany, N. Y., April 3.—A report
from "the Jerome nominators" to the
sources of District Attorney Jerome's
campaign fund in the last election in
New York county, is called for by a
bill introduced in the assembly. Under
its provisions the Jerome party
would have to file with the secretary
of state on or before June 1, 1906, a
sworn statement showing all receipts
and expenditures in aid of Mr.
Jerome's election. The bill is couched
in general terms, but the description is
so explicit as to apply only to the
Jerome nominators.

For a Long Siege.
Lexington, Mo., April 3.—The 1,200
coal miners here refused to enter the
mines. They do not seem to think
that there is much probability of a
contract being signed in the near
future and are preparing for a long
siege of idleness.

One out of every 111 men employed
in the Illinois coal mines was injured
last year.

Children Face Many Dangers

The Work and Worry and Close Con-
finement of Their School Days and
How They Can Be Safeguarded

To thousands of boys and girls the
commencement of the school year and the
duties imposed by their studies are a
strain, a very serious strain. Many
become broken in health by this strain
and are physically weakened for life.
Give your boys and girls good,
healthful, pure, strengthening food
and you go far toward removing all
dangers.
Malt-Vita is the crisp, delicious,
whole wheat food, contains every food
element necessary to the maintenance
and upbuilding of the human body and
mind—especially beneficial for children.
"Malt-Vita" is no meaningless
colored word. It stands for its literal
translation from the Latin and means
exactly what it says, "Malt Life." The
original phrase "For the blood in the
life" is the starting point and final
winning point of Malt-Vita, on account
of its large percentage of maltose, or
malt sugar, a natural sweetening agent,
easily digestible and readily assim-
ilated by the human economy, forming
rich, healthy blood.
Malt-Vita is no food to eat—not
at all like the tasteless variety of
breakfast foods—that the whole family
welcome its appearance on the table,
and it's always ready to aid in the
work of the human economy.

CHANGED NAME WHEN A BOY

Rev. Mr. Condo, of Indiana, and His
Teacher-Wife are Reunited at
Her Mother's Bier.

Columbus, Ind., April 3.—Rev. Adam
Byron Condo and his wife were re-
united Monday at the bier of her
mother, Mrs. Mary Shuck, after a sepa-
ration of 10 years.

After living with his wife for 12
years under the name of Armen, Rev.
Condo's identity was exposed in 1896,
and he left suddenly in fear, he says
now, of blackmailing. His wife after-
ward learned that he had left under a
misunderstanding, and corresponded
with him, but would not permit him
to return on account of objections by
her mother.

The latter died Friday, and he was
at once telegraphed for, and will here-
after live with his wife.

Rev. Condo got into trouble when a
boy, and fled to Maine, where he had
his name changed to Armen. Under
this name he was a professor in
Hartsville College, and in 1881 mar-
ried Lucetta W. Shuck. They lived
happily until 1896.

Rev. Condo is of the United Breth-
ren church, and is now preaching in
Southern Indiana. His wife has long
been a professor of Latin in the local
high school and a prominent club
woman.

AUDITORIUM ALL WEEK.

The Myrtle-Harder Stock company
which has toured the United States
for the past nine years, and which
now has the reputation of being one
of the strongest repertoire organiza-
tions playing at popular prices, begin
a week's engagement at the Auditor-
ium Monday night, presenting Chas.
Emerson's sensational story of the
slaves of the world's most wicked city
"The Evils of Paris." The following
vaudeville features were interspersed
between the acts: The great Rusar
Trio, comedy musical experts; the
Carleton Sisters, "The Southern Rose-
buds"; Nat Gill, with a company of
wonderful walking and talking me-
chanical figures; Garden City Quar-
ette, in novelty, comedy and har-
mony; Edward Dupont, the eccentric
comedian; Little Ellen, comic char-
acter and dancing, and the Kinet-
ograph, with new life motion pictures.
The production was one of the best
ever seen in repertoire in this city
and the crowded house that greeted
the company was more than pleased
with the performance.

The company is the largest one in
stock that has ever played the house
and is composed of artists. All the
members are almost perfect in their
various lines. On this and Thursday
afternoon special matinees at 2:15
will be given, and performances even-
ing with a change of bill at each
performance.

RALPH WYETH'S HAND CUT AND BOTH LEGS BRUISED IN BAD SMASHUP.

Mrs. Wyeth, nee McCune, Received Slight Injury to Hip—Cause Is Not Known.

Ralph S. Wyeth of this city, who started on his wedding trip to Florida last week, was cut on the left hand and sustained bruises on both legs in the Southern wreck near Macon, Ga.

Mrs. Wyeth, formerly Miss Alice McCune, received slight injury to the left hip.

Both Mr. and Mrs. Wyeth were able to resume their journey Sunday night, and are now at St. Augustine, Fla.

Mr. A. G. Wyeth has as yet received no word from his son Ralph, who with his bride, was in a bad wreck on the Southern road near Macon, Ga. last Saturday afternoon, but a copy of the Macon Sunday Telegraph was received Tuesday giving an extended account of the accident. The Telegraph says in part:

The magnificent Chicago and Florida special of the Southern railroad left the rails near Holton Saturday afternoon. The train was practically demolished and 11 persons were injured, one of them fatally.

The train was running 38 miles an hour when it jumped the track. The first car leaped the rails just after the train had crossed a short trestle at the point where it was rounding a curve.

There were five cars on the train, all Pullman, a club smoker next the engine, three sleepers and an observation diner at the rear. Which car was the first to leave the track is not known, but the train hurled ahead the wheels of the derailed car driving across the ties and cutting them in two at places. Three hundred yards ahead the train entered a cut and at this point the club and baggage car crashed sideways into the boulders projecting from the side of the cut and shot on like a catapult for a hundred feet. Then the crash came.

The engine stopped suddenly and the club car immediately behind hammered into the track of the engine and by some means rose into the air and shot half way over the fender, breaking in halves. The sleeper immediately behind toppled over and like the club car was hammered against the boulders at the sides.

The two next sleepers left the rails and when the train finally stopped it was merely a heap of ruined cars with the engine still holding the rails in front and the observation car still on the track behind. The engine had barely got through the cut when the halt was finally made.

That numbers were not killed seems a miracle. In the baggage car, which was smashed to tinder, were the baggage master, the negro porter, who was fatally injured, and five male passengers. In all there were twenty-two persons on the train, and of these fifteen were injured.

When those who were uninjured or only slightly hurt broke out and looked around, they faced a scene of havoc indescribable. At that moment it looked as if the loss of life might have been great. Engineer Ed. Liddell drove his engine to Holton where a call was flashed in for wreckers and for physicians.

On the train was a party of seven business men from Springfield and New Carlisle, O., on their way to Cuba. Several of these were in the club car, which was the one worst smashed, and they sustained severe but not dangerous injuries. Among other passengers were R. S. Wyeth and wife of Newark, O., who were bride and groom. Both were slightly injured.

When the wrecking trains had reached the scene they found that one of the rails had been wrenched away by the smash-up in the cut, and they were compelled to work between the walls which rose up at each side. They were at work until late Saturday night, and throughout this time traffic was blocked over the Southern. The cause of the accident remains unknown.

DISCRIMINATING LADIES.

Enjoy Using Herpicle on Account of Its Distinctiveness.

The ladies who have used Newbrow's Herpicle speak of it in the highest terms for its quick effect in clearing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbrow's Herpicle effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicle stops falling hair and prevents baldness. It is also an ideal hair dressing for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c in stamps for sample to The Herpicle Co., Detroit, Mich.

BONDS AUTHORIZED BY SCHOOL BOARD

FOR THE PURPOSE OF PURCHASING SITES FOR NEW SCHOOL BUILDINGS.

Members Will Visit the Mansfield High School to Get Ideas Regarding Construction.

The Board of Education met last evening. Messrs. Boggs, Keller, Fulton, Haight and Christian were present. The board held a short session, but in that time quite a number of matters were taken care of, principal of which was the authorizing of the issue of \$15,000 in bonds for new school sites and improvements, the improvements being demanded by the state building inspector.

The matter of the change in the size of the High school building was taken up, and in this connection it was suggested that the present High school building be arranged for grade school purposes, and that the old Central building be rebuilt in the style of an up-to-date High school. This was merely a suggestion made to one of the members of the board, but when brought up last evening did not meet with that body's approval. Superintendent Shulkin suggested that a representative committee of the board visit certain outside schools in order that some new ideas might be gained as regards the enlargement of the High school. It was decided that certain members of the board, who could conveniently do so, visit the Mansfield High school and find if possible some ideas toward the solving of the building problem. Members Keller and Haight will probably go to Mansfield some time this week.

The resignation of Miss Elizabeth Thomas of Oxford, O., who taught in the High school here for the past three years, but who was given leave of absence some time ago, was received and accepted by the board. Miss Daisy Hughes also resigned her post as teacher in the South Third street building, and the superintendent recommended Miss Hipsley, for some time a contingent, as her successor. He was authorized to assign her to that place and make the appointment in form at the next meeting.

Twenty dollars was appropriated for the expense of the superintendent at the National Superintendents' convention, recently held in Louisville, Kentucky.

The monthly report of the transit officer was heard, and a number of bills were allowed.

Mabel Summers is in the lead in the races at the Palace.

NEW ORDERS

Put Into Effect on the Canton-Akron Road by General Manager J. H. Harrigan.

In line with other improvements inaugurated by General Manager J. H. Harrigan, orders have just been issued making it necessary for all motormen and conductors on C.A. Interurban cars to secure watches of standard quality and submit them for inspection at stated intervals to an inspector who has been selected.

Motormen and conductors will not be permitted to use the clock in the DuChesne-Hampton tower at Canton or the tower at the New Philadelphia court house.

A limit of variance of thirty seconds per week has been placed as a standard for motormen and conductors in purchasing new watches.

Two years ago such a departure on the C.A. Co. would have been considered a joke, as the Interurban cars were not on time ten per cent of the time. Since the powerful generator plants have been completed and the system put in much better shape, with good roadbeds and quick time schedules, the importance of the motormen's watches has increased proportionately.

This order has been effective in Newark for over two years past.

Called for Guards.

Irwin, Pa., April 3.—The soft coal fields about Irwin are experiencing a general strike. A thousand men at Edna, number 1 and number 2 of the Pittsburgh and Baltimore Coal company, are on strike. The men decided to make a demand for the scale prevailing elsewhere, an 8-hour day and pay for removing the slate. The mine workers' officials say they have a strong organization at the Edna mines. The company operating the two mines agreed to give the five cents advance along with the rest of the operators in the Irwin field. A technical question of the size of screen used is raised and the union officials say the advance brings the scale up to only 5 cents a ton, five cents below the scale adopted. The company called for guards and will try to operate its mines.
